Overview

The perfect 8-hour chair for those all-day long seminars, luncheons and lectures. The 3" seat features 2.6 lb deluxe foam over rubber webbing. The back frame flexes through a patented system with steel spring control to constantly adjust to your motion and relieve stress and fatigue. The tall chair supports the full length of one's back.

Chairs stack 10 high and stacks are easily moved with a self-balancing Daniel Paul Chairs hand truck.

Consult Standard or Premium Metal Finishes for color selection.

Features

Stack up to 12 high freestanding.

No exposed fastening system.

3" molded foam over plywood deck.

Double stitched waterfall seat.

Stacking bar.

Triple umbrella, rubber cushion, steel plated glides.
