C.O.M. Yardage: 1.25

Overview

The perfect 8-hour chair for those all-day long seminars, luncheons and lectures. The 2190 is our non-action back version of our 2195. The tall chair supports the full length of one's back.

The chair features 2" thick molded foam over a plywood, flat seat panel. The back features foam covered plywood back panels fastened to the frame without visible fasteners.

Chairs stack 10 high and stacks are easily moved with a self-balancing Daniel Paul Chairs hand truck.

Consult Standard or Premium Metal Finishes for color selection.
