Overview

ALL ALUMINUM SIDE CHAIR

The all aluminum arm chair features heavy gauge aluminum framing with a silver powder coat finish that will maintain its appearance for years in outdoor use. Fluted slats in seat and back are riveted to frame for maintenance free use. Structural joints are welded or feature through frame tie bars for extra strength in contract use. Mar resistant plastic glides protect pool decks and floor surfaces. Chairs stack for storage or to make room for floor maintenance.

Available in matching Bar Stool, style I4I3 and arm chair I4II.
