

Light Weight (LW) Round

Specs

Product Options

Shell available in Gray only.

Frame available in Black only.

Overview

Light Weight Plastic Top Folding tables are polyethylene with color blended throughout. Formulated for outdoor exposure with minimal fade or thermal stress cracking. The main frames of the tables are roll formed 14-gauge steel with through-bolt attachment and industry proven 16-gauge wishbone style base assembly. Frame and tubing cleaned with industrial cleaner and then phosphate for rust resistance. DPC Folding Tables have a 1 year limited warranty under normal use.
