L400 Series Table Tops

Overview

Laminate

All laminate tops are available in your choice of our standard laminates listed on this page, and can also be ordered in any of the other laminate brands, such as Formica, Pionite, or Laminart designs. Consult your Sales Rep or CSR for possible upcharge.

Construction

The overall thickness of the tops is 1 1/4" and the substrate consists of a 45 pound density particle board, which is backed by a .020" thickness phenolic balancing sheet.

Finishes

Solid wood and veneer tops are finished in a catalyzed varnish, resulting in an alcohol and chemical resistant top surface. All wood tops should be cleaned only with a soft non-abrasive wiping cloth, and in rare instances a soft soap mild solution may be used.

Packaging & Shipping

Tops are normally bulk packed on skids and can be shipped in individual packages at additional cost. All tops when ordered as a complete table (top and base) are predrilled to facilitate easy assembly. Required screws are supplied in shipment.

Features

Edging options:
-**SE** Self Edge
-**VE** Vinyl Edge
