Blossom Cherrywood 758-58

Overview

All laminate tops are available in your choice of our standard laminates listed on this page, and can also be ordered in any of the other laminate brands, such as Formica, Pionite, or Laminart designs. Consult your Sales Rep or CSR for possible upcharge.

The overall thickness of the tops is 1 1/4" and the substrate consists of a 45 pound density particle board, which is backed by a .020" thickness phenolic balancing sheet.

Packaging & Shipping Tops are normally bulk packed on skids and can be shipped in individual packages at additional cost. All tops when ordered as a complete table (top and base) are predrilled to facilitate easy assembly. Required screws are supplied in shipment.

The laminate is inset from the edge of the top, and provides a smooth dining surface. The top edges are finished in a catalyzed varnish to provide trouble free service. Please select from our standard Daniel Paul Chairs wood Finishes for the wood edge.

Features

-HBN Half Bullnose

-FBN Full Bullnose

-OGEE Ogee
