CHAIRS

1012 Oceanic side chair

Specs

Width: 16" (41cm)
Depth: 21" (53cm)
Back Height: 34" (86cm)
Seat Height: 19" (47cm)

Overview

The Oceanic series was originally designed for the US Navy, chosen to maximize durability and minimize weight and maintenance. All welded aluminum frames are lighter and more durable than steel, and is rust proof and non-corrosive. Clear powder coated satin finish provides an attractive, easily maintained surface. Contoured seat provides improved seating comfort.
