

DANIEL PAUL

CHAIRS

2332

Overview

Contemporary styling banquet chair with waterfall front on the molded foam seat. The heavy duty all aluminum 7/8" square tubular frame reduces weight for handling by house staff or banquet patrons. The curved seat and back provide hours of comfort whether for dining or conference. Triple clip umbrella glides with plated steel base serve on all flooring surfaces. Powder coated finishes are standard, consult the Standard and Premium Metal Finishes for selection.

Features

- Stack up to 12 high free standing
