Nylon caps over steel plated glides

## Overview

The perfect 8-hour chair for those all-day long seminars, luncheons and lectures. The 3" seat features 2.6 lb deluxe foam over rubber webbing. The back frame flexes through a patented system with steel spring control to constantly adjust to your motion and relieve stress and fatigue. The tall chair supports the full length of one's back.

The chairs are comfortably stacked 10 high and are easily moved with a self-balancing Daniel Paul Chairs hand truck.

Consult Standard or Premium Metal Finishes for color selection.
