Cocoa Maple 7739-58

Chestnut Woodline 5884-58

Blossom Cherrywood 758-58

Ginger Root Maple 7288-58

Cherry Birch 7484-58

### Overview

1 1/4" Wood Edge Tops feature a laminate surface applied over a flakeboard core. The wood banding edges are shaped after the laminate is applied in the desired edge detail. Edges are finished with a catalyzed varnish to provide trouble free service.

#### Laminate

All laminate tops are available in your choice of our standard laminates listed on this page, and can also be ordered in any of the other laminate brands, such as Formica, Pionite, or Laminart designs. Consult your Sales Rep or CSR for possible upcharge.

#### Construction

The overall thickness of the tops is 1 1/4" and the substrate consists of a 45 pound density particle board, which is backed by a .020" thickness phenolic balancing sheet. Wood edge bands are normally produced in maple wood but other species are also available. Please select from our standard Daniel Paul Chairs Wood Finishes for the wood edge. Other finishes are available at additional cost. Solid wood and veneer tops are available in Red Oak and White Hard Maple. Other species are also available at additional cost. All solid wood tops are 1 1/4" thick.

#### Finishes

Solid wood and veneer tops are finished in a catalyzed varnish, resulting in an alcohol and chemical resistant top surface. All wood tops should be cleaned only with a soft non-abrasive wiping cloth, and in rare instances a soft soap mild solution may be used.

#### Packaging & Shipping

Tops are normally bulk packed on skids and can be shipped in individual packages at additional cost. All tops when ordered as a complete table (top and base) are predrilled to facilitate easy assembly. Required screws are supplied in shipment.

Natural Cherry 7737-58  
Glow Maple 9257-58  
Amber Maple 7012-58

Other laminates available upon request. Special quote will be required and may include an upcharge and increased lead time.

See Table Base Sizing Chart for appropriate top-to-base sizing considerations.
