Product Options

This chair will accommodate 2 or 4 casters.

Overview

The Victoria Series style can be traced back to the classic styles of the 19th century. Chairs in similar styles became the favorite during the art deco period (1919-1929), in particular for hotel interiors. The inside and outside back is upholstered without any exposed fasteners and the compound contour shaped inside back assures maximum lumbar support. The foam padded spring seat provides the ultimate in user comfort. The legs of the 8121 are fitted with rubber cushion glides for easy movement on all floor surfaces. For cocktail lounge areas and locations where greater mobility is required, this series is available with bronze plated twin roll casters fitted into ferruled legs. DPC offers a selection of 10 different wood **Finishes**.
