* When ordering hand trucks for this series specify #20/5030.

Overview

When the user moves from an upright seated, to reclined position, Astron's responsive tilt positioning automatically adjusts the padded back according to the users body weight. The Astron Series seat comes standard with 3 inches of luxurious molded foam upholstered over solid plywood seat board. The result is tension free long term seating comfort. The Astron Series meets and exceeds ANSI BIFMA contract seating standards, for years of trouble free use. Consult the Standard and Premium metal finishes for selection.

Features

Stacks 8-10 high free standing.
Powder coated aluminum frame.
Nickel plated triple umbrella rubber cushion glides.
Weight activated action back.
3" thick sewn waterfall seat upholstered over plywood seat board.
