

3500 Gaming Stool

Overview

Deluxe Gaming Stool

Molded foam cushion seat with waterfall front design provides hours of comfort and years of durability in gaming use. Foam padded back is connected to seat with upholstered metal flex support.

Top quality gas spring allows for adjustable seating heights through a range from 20" to 25". Seat swivels through complete 360° but after exiting, seat automatically returns to original seating height and faces gaming device. Polished chrome plated circular steel foot rest. Disc frame is powder coated and is available in various colors.

Seating height in other ranges are available, contact customer service for further information.
